

**“3425E023/3425E024
Individual Studies in Clinical”
(International Clinical Training
Program)**

ICTP

What is it?

Join **clinical work/training** in **your specialty** of interest at one of the four TMU affiliated hospitals.

How long?

From
1 MONTH
To
2 YEARS
(According to training level and Specialty)

+ Ms or PhD?

The trainee may join the courses of International Master/PhD program in medicine at school and participate in the patient care at hospitals **under the supervision of a mentor.**

ICTP

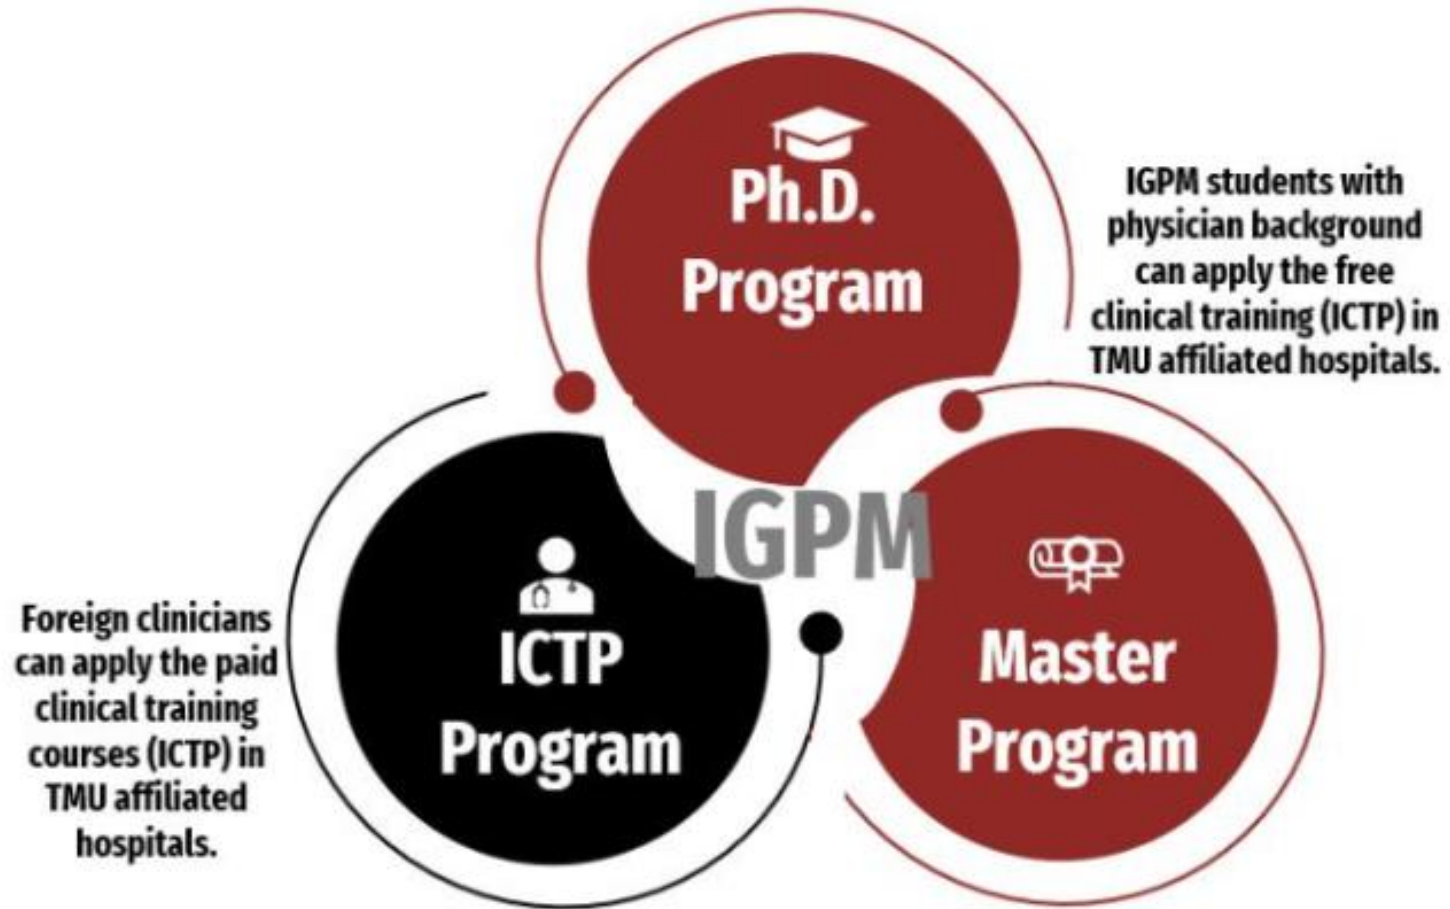

▶ **Only Ms and PhD?**

▶ If a physician not enrolled at IGPM wants to apply for ICTP it is possible and if latter desires to study the MS or PhD program of medicine at TMU , when accepted to the program, those credits can be waived.

“ We value the **diversity** that visiting resident/fellows bring to the program and want to make sure that staff from **foreign institutions have every opportunity to come to TMU** and experience what we have to offer. ”

 1. 3425E023 (Fall semester)
 2. 3425E024(Spring semester)
- ✓ **Step 4: wait for approval and then start the clinical training.**

WHEN TO TAKE ICTP & FEES

If you are M.D. , you can apply for this course **when you nearly complete your study at TMU.**

We strongly recommend students apply this course in **the last semester before your graduation.**

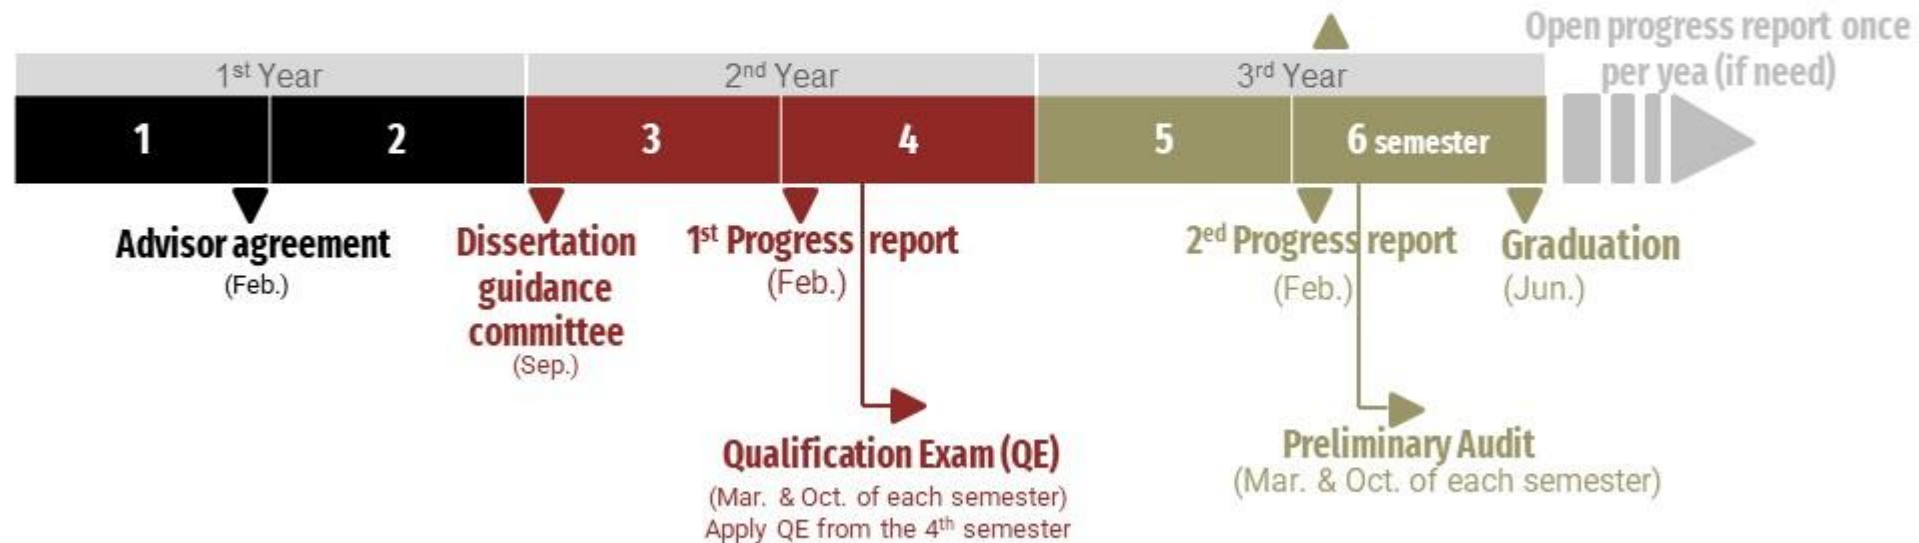

Your study progress might be good and therefore **your supervisor would be willing to help you to learn more.**

If your study progress is good, **your supervisors can/will agree to let you take the course early** because there is no additional fee for taking the course before the third year.

During and after **third year**, you **have to pay** the 2 credit fee in total of **NTD\$4000 approx.**

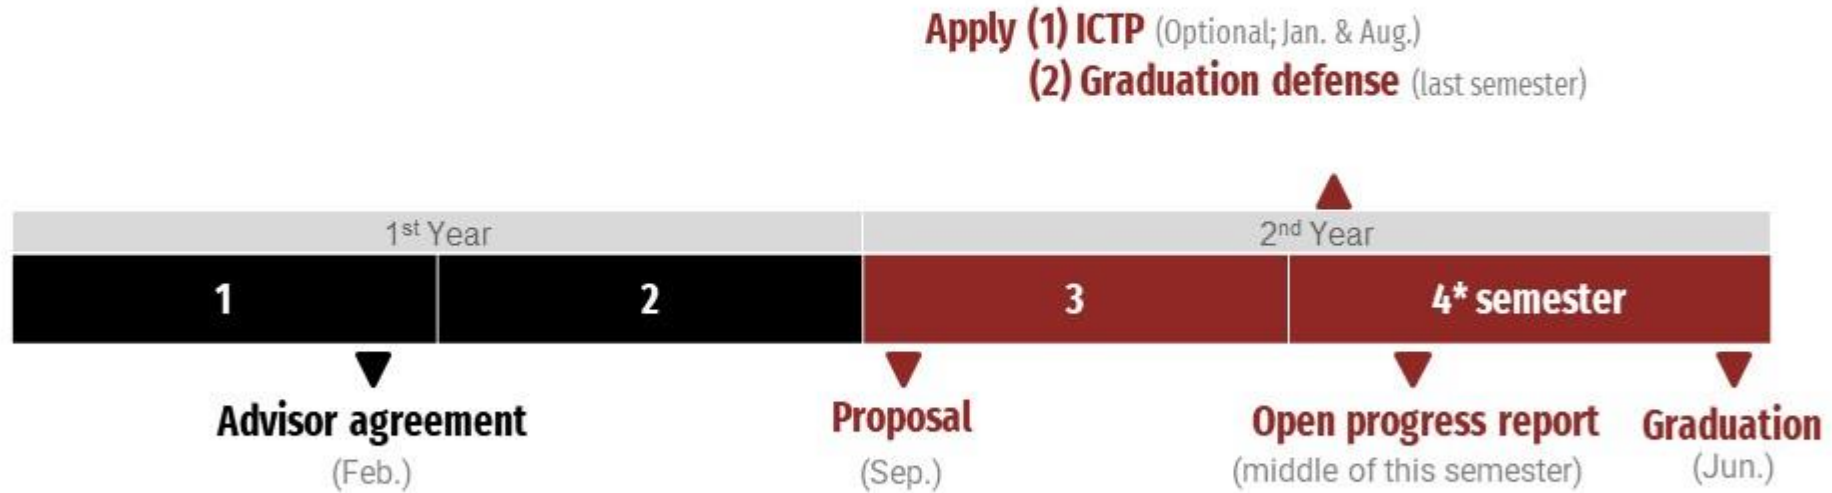

IGPM Ph.D. Program Graduation Timeline (3 years)

Apply (1) ICTP (Optional; Jan. & Aug.)
(2) Graduation defense (last semester)

*International Clinical Training Program (ICTP) provide clinicians a free clinical training course in TMU affiliated hospitals

IGPM Master's Program Graduation Timeline

*International Clinical Training Program (ICTP) provide clinicians a free clinical training course in TMU affiliated hospitals

SUPERVISORS

For the students **who's supervisors are not physicians**, you still **can apply** for the course, and **your supervisor will help you to arrange an advisor** in the hospital to take care of you.

CHINESE COURSE

When you are learning in the hospital, **the official language is Chinese.**

Your advisor might **not have time to translate** the conversation between doctors and patients for you.

That means, if you don't know a bit Chinese, you will have difficulty.

We strongly recommend you **take the free Chinese course in TMU since the first year**, and interact with more local students to improve your Chinese.
