

August 7, August 10-13, 2026 Urban Resilience (Air-Defense) Exercise

**Traffic Controls, Blackout,
Secure Doors & Windows, Network Slowdown**

When the air-defense alarm sounds (or a mobile phone warning message is received), all motorists, passengers and pedestrians are required to follow the guidance of police and civil defense staff by evacuating to the nearest shelter.

- A siren indicates the start of the drill : The siren is a 15-second high pitch sound followed by a 5-second low pitch sound with three cycles lasting 115 seconds in total.
Siren indicating the end of the drill : A 90-second high pitch sound.
- Anyone who violates the regulations governing the drill will be fined between NT\$30,000 and NT\$150,000 in accordance with the Civil Defense Act.

The 2026 Urban Resilience (Air Defense) Exercise will include a newly introduced “mobile internet slowdown” simulation test

- “Mobile communication network outage” refers to a localized and temporary scenario (not a nationwide outage or a large-scale network shutdown lasting several hours).
- If you receive a text message/alert, there is no need to stop your vehicle or take shelter.
